Bill is the primary contact person for all OMS missionaries that are in the U.S. needing funding for initial placement or on Home Ministry Assignment (HMA). He is to provide pastoral care, coaching, and guidance to the missionaries as needed. In addition, he is to ensure the candidates and HMA missionaries are progressing toward their funding goals so they can be released to the fields.

Joyce's new job assignment as Social Ministries Advocate is to open a new area of ministry for OMS through awareness programs on the growing issues of human trafficking and modern day slavery. OMS will be partnering with World Hope for training of nationals in selected countries where OMS ministers.
