The Fillmore Youth Center, opened in 2000, operates under the Southern Tier Youth For Christ. Its mission is to provide a drug and alcohol free environment where young people can meet for recreation and fellowship. An average of sixty youth each week participate in games, sports, special events, Campus Life Club, tutoring and more. Community adults serve on the operating board and fourteen volunteer staff members plan and supervise activities.

The Skateboard Park brought together resources from the community to provide a safe place for youth recreation.

Please pray for (1) continued financial support for the Center as improvements and additions are made to the facilities; (2) the board and community volunteers; (3) that young people may be led to Christ and incorporated into the fellowship of local churches.
